

## FERNY HILLS POOL

### PROJECT SUMMARY

Client: Morton Bay Regional Council

Location: Ferny Hills

Duration: 2 Months

Value: \$ 120,000

#### Major Challenges Overcome:

- Timing
- Tile availability
- Concrete cancer

**Ferny Hills Pool –Scum Channel and coating completed**

#### *The Project*

The project consisted of the epoxy coating of the 50 meter pool along with the re-tiling of the scum channel and associated works. The previous coating was worn and had failed in many locations.

Moreton Bay Regional Council (MBRC) engaged Epoxy Solutions to apply three coats of Chemrite MC Pool epoxy and repair the scum channel.

#### *Completed Works*

The photo below illustrates how the previous coating had worn and failed.
